

HSM AK 4014 V

HSM AK 4014 V

Economic waste disposal solution for the compression of packaging material for retail chains and trading companies

- Compresses cardboard and plastic film
- Very low space requirement
- Especially large loading aperture for bulky materials
- High throughput capacity
- Convenient filling via hydraulic lifting/tilting device
- High specific pressing power provides a high compaction of the material and consequently an optimum HGV load
- Vertical, semi-automatic strapping of the bale saves space and handling effort
- Cost-saving strapping technique with twine
- Hydraulic twine insertion needles
- Convenient operation with membrane keypad, different languages available
- Innovative press cylinder concept
- Low noise emission with protective cover over the power unit
- Process capable operating mode
- Outstanding price performance ratio

Product type description	HSM AK 4014
Order number	6408114
Pressing power	400 kN
Specific pressing power	70 N/cm ²
Loading aperture width	670 mm
Press chamber width	750 mm
Bale length	1200,00 mm
Bale width	750 mm
Bale height	750 mm
Bale weight (max.)	300 kg
Number of strappings	3
Strapping material	GARN
Cycle time in idle operation	37 s
Driving power	7.5 kW
Voltage	400 V
Frequency	50 Hz
Width	2264 mm
Height	2851 mm
