

HSM HL 3521

HSM HL 3521

The HL 3521, with its exceptional large loading aperture is the perfect machine for compressing large quantities of paper, cardboard, foils or packaging material and for extremely large and bulky materials. The 6-fold strapping is performed in a manual process with continuous polyester tape or wire. •Hydraulic counterplate for bale removal ensures optimum operating convenience and safety

- The full stroke of the press ram ejects the bale completely
- Stored-program controller PLC
- High levels of compression are ensured by optimally dimensioned retaining claws
- Optimum operation ensured by the return stroke of the press ram
- Hydraulic loading flap for maximum operating comfort and for precompressing
- The unique design and controllable positioning of the press ram allow for easy cleaning and servicing

Product type description	HSM HL 3521 9kW	HSM HL 3521 15kW
Order number	Dummy_HL_3521_9KW	Dummy_HL_3521_15KW
Number of strappings	6	
Driving power	9.2 kW	15 kW
Voltage	400 V	400 V
Frequency	50 Hz	50 Hz
Weight	4500 kg	4500 kg
